

PRODUCT DATA SHEET FOR OXYFLEX® - MT300

Features

1" (3/4") connector thread
Outside diameter 350 mm
Active aeration surface 0.07 m²
Dual return flow prevention available on request

Materials

Base plate and
support ring: Polypropylene (PP-GF)
Membrane: EPDM / silicon
Seals: EPDM

The recommended minimum distance
between the bores in the pipe is 360 mm.

PRODUCT DATA SHEET FOR OXYFLEX® - MT235

Features

1" (3/4") connector thread
Outside diameter 280 mm
Active aeration surface 0.04 m²
Dual return flow prevention available on request

Materials

Base plate and
support ring: Polypropylene (PP-GF)
Membrane: EPDM
Seals: EPDM

The recommended minimum distance
between the bores in the pipe is 295 mm.
